IMC Metering Systems

IMC 5 Gallon Pail Supply Cart

General Description:

Designed specifically to hold and cool 5 gallon pails of In Mold Coating. This compact, easily portable unit is quick to hook-up and changeover. Four swivel casters allow you to position the cooler wherever it's needed around the plant leading to material and time savings. Since catalyzed resins stay cool, they last longer, and EMC 2's low maintenance, high efficiency design, is preferred by plant personnel.

Features:

- Easy changeover
- Simple hookup
- 4 swivel casters for easy maneuvering
- Air operated lever valve raises or lowers pump
- Standard components
- Polyethylene lining for easy cleaning
- Keeps materials cool for extended shelf life
- Easy to use with any in-mold coating system

Specifications:

- Hold standard 5 gallon pails
- Size 24" x 24" x 60"
- 10:1 material pump (GRACO)
- 1/4" Air supply connection
- Manual valve to shut off air supply to pump
- 3/8" water connections
- Four swivel casters
- Requires temperature controlled water supply
